

# Two Year Impact Report

## 2 Ugandan partnerships

We've begun working with two Ugandan organizations: AMACOD (partnering on a family strengthening initiative) and Uganda Without Orphans (working together to promote family-based care).

## 37 orphanages engaged with

Through our partnership with Uganda Without Orphans, we've engaged with 37 orphanages on the basics of family-based care and why kids do best in families not orphanages. We're hopeful in-depth coaching relationships will come from this!

## 65+ hours of coaching

We've provided 65+ hours of support and coaching to an orphanage of 33 children on their journey of getting children into families. This included support on child protection, case management, finances, fundraising, and strategic planning.

"It was truly a pleasure doing a training with Otem Collective. It was one of the best I have ever experienced!"

TBRI® and trauma-informed training participants

"Everyone should go through a TBRI® training. The world would literally be a better place if people knew how trauma affected kids and how adults' trauma affected other people."  
-Church Staff
